## **Factors of Changes in Net Sales**

## Medical Support Business FY2011 Financial Results

### Overview of financial results for FY2011

#### Higher net sales per hospital

- Continuous pursuit of the contract revision strategy produced higher net sales per hospital and a second consecutive fiscal year of higher net sales
- Per hospital net sales: ¥46 million (FY2010: ¥44 million)

#### Continued increases in staff compensation

- · Continued increases in staff compensation have promoted the hiring of outstanding personnel and greater efficiency in staff deployment, resulting in upward trend upward of income in second half
- → Even with higher health insurance rates and other factors which contributed to higher personnel expense, income remained at roughly the same level as FY2010 (based on existing standards)

#### Reducing the administrative burden of physicians

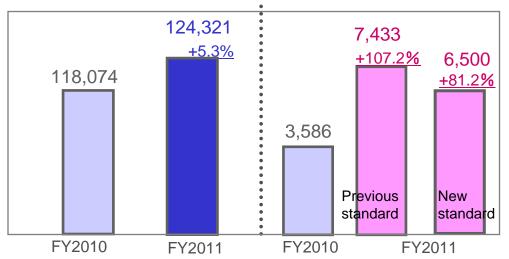

- · Launched of the cyber clerk business
- · Promoted deployment of medical office work assistants

#### Redoubled efforts to develop the childcare business.

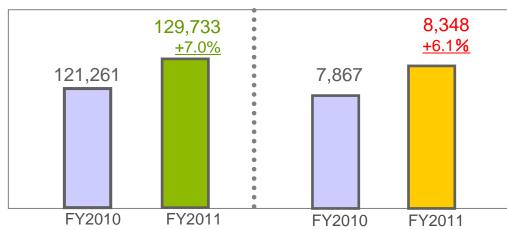

• The childcare business division was made into a separate division in February and efforts have been redoubled to develop childcare services within offices and medical institutions

#### **Overview of financial results for FY2011**

#### ◆Home-care services and non-insurance services

- Increase in Care plan users
- Increase in users of home-visit care, day care, and care equipment leasing services (up 7% vs. FY2010)
- Increase in number of designated home-care support facilities acquired additional compensation
- Increase in users of welfare services for the handicapped (up 50% vs. FY2010)

#### ◆Stronger efforts to develop service centers

Numbers of new service centers for primary services

|            | FY2010 | FY2011      |
|------------|--------|-------------|
| Care plan  | 673    | 694 (+21)   |
| Home-visit | 989    | 1,022 (+33) |
| Day-care   | 285    | 294 (+9)    |
| Hohoemi    | 203    | 217 (+14)   |
| Kirameki   | 32     | 34 (+2)     |

#### Implementation of staff compensation improvements

- Continued to increase staff compensation
- · Enhanced job-specific training to improve skills

Started in 2010

Web College

**Education Business supporting the** "Education-to-Work" business model

**Education Business** supporting a society with participation by all

## **Childcare: Business Strategy**

### Developing the Childcare Centers which Utilizing Synergies with Nichii's Core Businesses

- Promotion of the Childcare Business Using Nichii's Management Resource Keeping Future System Design in Mind -

## Establishment of a new childcare system (Launch slated for 2013)

#### [System Overview]

- (1) Government-backed system and centralized financial support
- (2) Unification of nursery school and preschool services
- (3) Provision of diversified childcare services

#### [Services]

#### (1) Kodomo-en (Tentative name)

This facility will do away with the barriers separating preschools, nursery schools, certified Kodomo-en, public and private facilities, and certified and non-certified facilities to provide both nursery school and preschool services. It is necessary to respond to the needs for short-term and nighttime services, services for children recovering from illnesses, etc.

#### (2) Small-scale childcare services

For areas with declining populations, we limit the number of children per facility to 20, consisting mainly of children less than 3 years old. Facilities will cooperate with Kodomo-en and other facilities to provide small-scale childcare services.

#### (3) Home-visit services

Nursery school services will be provided to applying users at their homes. These services will be available to families with children recovering from illnesses or who need services within the home environment.

### <Playing a Part in Innovation in the Fields of Medical and Long-Term Care>

## Survey on IT Contributions to the Management Efficiency and Stability for Long-Term Care Service Provider

Ministry of Economy, Trade and Industry <Fiscal 2010>

The Company accepted a commission to study the application of voice-recognition technology to improve the front-line operations of long-term care facilities and ultimately improve their management efficiency and operational stability.

The Company proceeded with studies and assessments of topics including the document creation scheme using voice-recognition technology for business documents, possibilities for improving the front-line operations of long-term care facilities by centralizing administrative tasks, and new job creation approaches.

### Project for supporting development of a system to certify medical institutions to receive foreign patients

International Strategic Project: International Medical Exchanges <Fiscal 2012> Ministry of Health, Labor and Welfare has been promoting a development of certification system for medical institutions for the purpose of smoothly receiving foreign patients as part of the International Medical Exchanges positioned as a National Strategic Project under the New Growth Strategy approved by the Cabinet on June 18, 2010. The Company accepted a commission of the supporting business from the said Ministry.

### **Lakewoods Garden Himeharu no Sato**

■ Lakewoods Garden Himeharu no Sato Grand Opening on April 6, 2011

A park resting on the concept of bringing joy and healing to all visitors in an atmosphere of harmony between humankind and nature

Beautiful flowers in each season

Featuring venerable and noted species of hybrid tea roses whose big blooms grace every season, the Garden is the only one in Japan where visitors can get a good appreciation of the variety and history of roses. There are also German irises, cherry trees that blossom along the banks of the lake, and an abundance of other flowers to delight the eye, whatever the season.

Contact with lovable dogs

Rare and beautiful species of dogs such as the Australian Labradoodle, which has great promise for service as a therapy dog, also await visitors at the Garden. Don't miss the chance to meet these dogs and enjoy the various events staged in the Garden!

Visitor-friendly facilities

In keeping with the Nichii spirit, efforts were made to condition the Garden environment to enable enjoyment with peace of mind by all visitors including the aged and those in wheelchairs. The Garden has a room where visitors can rest or get first aid, and rents wheelchairs for a fee.

■The Australian Labradoodle, a species of dog that has excellent qualities for service as a therapy dog

The Australian Labradoodle was bred for the purpose of service as a care dog for people who are allergic to animals. Nichii uses this species in the dog therapy it provides at long-term care facilities.

- Features and appeal of the Australian Labradoodle
- ·Allergy-friendly
- Almost no odor
- Intelligent
- Loving
- ·Little shedding

#### ■Family Care Home (FCH) system

In advance of implementation of dog therapy, a new form of care provided in its long-term care facilities and other facilities, Nichii instated this system to maintain the pedigree of the Australian Labradoodle, a species of dog bred to serve as a therapy dog. We are recruiting foster families to cooperate with breeding activities.

All the profit targets and other forecasts, including the number of contracts, number of users, and goals contained in this document, are based on the current information available to the Nichii Group. Such information is subject to the influence of factors such as economic circumstances, relaxation of regulations and employment conditions. Please understand that actual business performance and other achievements, such as the number of contracts and number of users, may be substantially different from the forecasts.
